

# *Family*

Family is a gift from God

*Aaron* and  
*Denise*

Aaron and Denise value the security of a close knit family, education and family fun. We have been married nearly ten years. Here is our story.

# Love and

Aaron and Denise met at Denise's cousin Amanda's wedding. We began dating and enjoyed getting to know all about each another. Aaron had just graduated college and Denise was preparing to graduate the following semester. Denise continued on to graduate school during this time.

# Marriage

We dated for a year and a half and became engaged at a friend's wedding. We married the next summer with all our family and friends gathered. We met at a wedding and we were engaged at another wedding!

# *A Close*

Family is very important to us! We are both from the same midwestern state and our families live here. We have midwestern values and family is at the top of the list for us. We enjoy spending time with our families and holidays are especially important to us.

# Family

We are both from very large extended families. Denise's dad is one of 11 children (yep 11), and her mom one of 7. Aaron's dad is one of 5 children and his mom is one of 7. We have a very supportive network of friends and family.

# Family time

Things we love to do as a family are going to the park, going out for ice cream, enjoying an array of children's activities offered in our city, eating dinner with family. Time spent together making memories is at the top of the list for us. The three of us look forward to sharing our life with new baby brother or sister.

# Together

We were thrilled to welcome our daughter, Arianna, into our home through adoption. She was born in 2008 and can't wait to be a big sister. She loves to play with her cousins and other friendly children, and would be blessed with a brother or sister to love. This brother or sister would be just as important as Arianna and would be very special to us all. We have a room ready and waiting for new baby.

# Dear Birthparent

We would like to express how courageous you are at this very difficult time in your life. Our heart goes out to you. You may be wondering, what sets us apart from other couples? How will my little one grow up?

We will raise your child with an abundance of love and support. We value a close sibling relationship. We would raise the children to be there for one another. Having a brother or sister to create memories with is a wonderful way to grow up.

We are experienced adoptive parents and are not new to caring for a little one. Aaron is a hard-working and attentive father. Denise is a stay-at-home mom and we believe the children come first in a family. Our weekends are devoted to family fun and family time together.

Thank you for reading our profile and we have enjoyed sharing with you who we are. Thank you for considering us to raise this precious child.

~ Aaron, Denise, and Arianna
